

Tompkins County Development Corporation

The primary mission of the Tomkins County Development Corporation (TCDC) is to promote economic development initiatives in Tomkins County by offering tax-exempt bonding opportunities to not-for-profit organizations.

The tax-exempt bonds that were issued during 2011 to the not-for-profit entities allowed:

- 1) Expansion of Ithaca College's on campus housing
- 2) Franziska Racker Centers three main goals for the building project:
 - a) The first goal is to modernize our 50 year old pre-school building. It has served us well but it needs to be brought into the 21st century, 23,000 square feet.
 - b) The second goal was to help us add space (8,900 square feet) and reorganize our existing space so that we can better serve individuals and their families.
 - c) The third goal is to create two large spaces that will help us continue the development of the learning center.
